Codes and Compliance

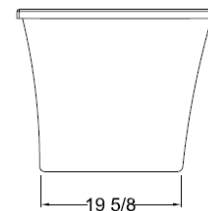

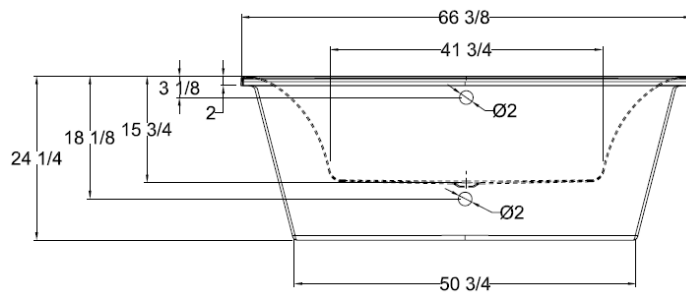

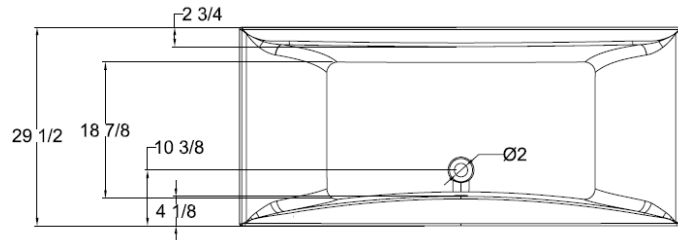

Products meet or exceed the following standards:

- Canadian Standard B-45
- ANSI Z124.1.2-2005

All products tested by Intertek Testing Service

Optional Accessories

Waste & Overflow (Exposed)

Note: Overflow hole is not pre-drilled (see General Information)

General Information

- This tub is made from a double skin acrylic technology which are bonded together as one (there is no panel around the bath)
- This tub can accommodate an exposed or freestanding (fire hydrant) waste and overflow. The overflow hole is not drilled to allow for various overflow installations.
- The bath must be secured to the floor by applying a bead of silicone around the base (this can be cut in future should access to the plumbing be necessary)
- Installation must be carried out according to the manufacturers instructions
